Notes on Funding

The implementation of the National Strategy on Property Rights will not incur any additional budgetary funding costs in the next MTBF, as all the activities planned in this strategy will either be funded by Donors, the existing government resources, i.e. personnel costs, will be used.

The USAID Property Rights Program supported the process of drafting this strategic document, and it will continue supporting the institutions in implementing the measures stemming from this Strategy.

In addition to the USAID Property Rights Program, particular measure foreseen on this Strategy can also be supported by the USAID Partnership for Development Program, the EU Project supporting the drafting of Kosovo's Civil Code, the World Bank Real Estate, Cadastre and Registration Project (RECAP), and the SIDA ProTax2 Project. Additional international partners—including OSCE, UNHCR, and UNDP—also focus on particular areas that are touched upon by this strategy. All relevant international partners were included in the process of drafting this document, thereby understanding their activities based on challenges identified on the ground.
